PROJECTS

🌐 **Portfolio Website** | HTML , CSS , JavaScript , PostgreSQL
A personal portfolio site showcasing skills, certifications, and self-learning journey in web development.
Designed to be fully responsive with a clean UI, it includes sections for about, education, projects, and contact.

🎓 **Final Year Project – Streamlining Platform with Educational Tools** |HTML, CSS, JS, Python(Django), SQLite
An e-learning platform offering users course enrollment, quiz submission, project uploads, resume generation, and certification after course completion. It also featured chatbot support for basic queries.
    Role: Developed the Resume Builder Module and Home Page UI/UX

📰 **Blog Website** | HTML , CSS , JavaScript ,PostgreSQL
A dynamic blogging platform allowing users to register, select categories, and publish formatted posts. Admin approval system in place before content appears publicly. Focused on usability and rich-text post submissions.
    Role: Complete Website Development
